

The Jewish Federations[®]
OF NORTH AMERICA

Dear State Government Affairs Professionals, JCRC Directors, Security Directors and Other Interested Parties:

We just clarified with FEMA that this year's guidance DOES allow an organization with one IEN number but with multiple sites to submit multiple applications under both NSGP-UA and NSGP-S.

This is a liberalization of a policy formally available only to campus environments or contiguous locations.

The guidance to submit multiple requests is as follows:

Yes, you may apply for multiple locations of the same organization but for each location/facility that you apply for, you must:

- a) Submit a complete Investment Justification;
- b) Have a vulnerability assessment specific to the location/facility that you are applying for; and
- c) Ensure that the total amount you are requesting for all locations/facilities does **not exceed \$100,000 or the cap defined by the SAA for NSGP-S.**
