

Senator ___
U.S. Senate
Washington, DC 20510

Dear Senator:

We, the more than 275 undersigned organizations and institutions, representing millions of Americans strongly support the recently-introduced Trauma-Informed Modernization of Eldercare for Holocaust Survivors Act (aka the TIME for Holocaust Survivors Act). This bipartisan legislation will ensure that Holocaust survivors living in the United State have access to the care and services that align with their needs.

Between 1933 and 1945, the Nazis and their collaborators murdered 6,000,000 Jews and many others. Millions more spent these years living in concentration camps, work camps, ghettos or as refugees. Today approximately 80,000 Holocaust survivors live in the United States. With an average age greater than 85, many are 90 years of age or older. Shockingly, one-third have incomes below the official U.S. poverty threshold, limiting their ability to receive care that meets their specific needs. Holocaust survivors live with the physical, mental, and social scars from the traumas they faced. Although aging Holocaust survivors have needs similar to those of other older Americans, the consequences of premature or unnecessary institutionalizations can be more severe for this population. For many, institutionalized settings produce sights, sounds, smells, emotions, and routines which can induce panic, anxiety, and re-traumatization as a result of their experiences during the Holocaust.

The TIME for Holocaust Survivors Act focuses on allowing these survivors to age in place with dignity, comfort, security, and quality of life, at the end of their lives. Specifically, this bill:

- Prioritizes the needs of Holocaust survivors within the Older Americans Act;
- Creates an Administration for Community Living portfolio that focuses on Holocaust survivors and serves as a liaison with other agencies throughout the federal government;
- Establishes a national resource center to share best practices and promote person-centered trauma-informed care for agencies that serve older adults experiencing the long-term and adverse consequences of trauma;
- Ensures that providers of nutrition and transportation services can meet the special health-related or other dietary needs and the mobility needs of Holocaust survivors; and
- Reports annually on the status and needs of Holocaust survivors and how the aging network is identifying and serving older adults experiencing the long-term and adverse consequences of trauma.

Holocaust survivors today are aging and entering their final years. We must uphold our responsibilities and provide Holocaust survivors with the best possible care and treat them in a manner that honors their lives. This legislation, should it become law, will go a long way toward meeting that goal. Please cosponsor the TIME for Holocaust Survivors Act now. If you have any questions about this bill, please contact Stephan.Kline@JewishFederations.org.

Sincerely,
