

Hello dear Saint Paul community!

My name is Keshet (my full name is Keshet rainbow warrior Berlinsky Edry , but that's something we can talk about later 😊 )

I'm from a moshav called Masshen , located next to a city name Ashkelon. I come from a modern family, I have one older brother from both of my

parents, and two little sisters and a brother from my dad, and a little brother from my mom. So, all together, I have 5 brothers and sisters.

I was an education instructor for many years, and I was in BBYO Israel and in LEAD organization. I did a year of service in Kibbutz Lotan prior to my army service. I served a year as a commander and a year as a tour guide for soldiers in Jerusalem. After the army, I came back to the kibbutz and worked a year as a kindergarten teacher. Then, I went on a three months trip to the U.S. and had an amazing adventure. I was lucky to be in many great places and to meet amazing people. I was even in Minnesota, in a town called Pipestone volunteering with the Keepers of the Sacred Tradition of Pipe Makers, a non-profit American Indian organization.

I love the outdoors and traveling, everything related to arts and crafts, and meeting new people. As for now, I have been working as a waitress and in "OR LAHINOCH" (translated to light of education), with Eden Kohali (who always says how much she loves and miss the community). I'm also studying herbalism and holistic medicine for the past two years.

I'm really excited to meet everyone and to get started, I bet it's going to be an amazing ride!

Looking forward to see you all soon!

Keshet
