

Low-Cost/No-Cost Safety and Security Measures for Individuals and Families

Jewish community members face a wide variety of threats from natural disasters to targeted anti-Semitic crimes. As a result of these varying threats, individuals and families must take steps to prepare. Emergency preparedness can often be intimidating due not only to the large number of threats and hazards that must be prepared for, but also the anticipated costs associated with it. However, providing for the safety and security of yourself and/or your family does not have to be costly, and its benefits are invaluable. This document outlines safety and security measures that are of little to no cost.

Keep Your Landscaping Neat

Neat and tidy landscaping is a crucial element in preventing not only criminal activity, but also increasing safety during natural disasters.

- Keep bushes and trees trimmed and neat to eliminate hiding spots, provide clear lines of sight, and prevent access to your home
 - Bushes and shrubbery should be no higher than 3 feet and the lowest limb on any trees near your home should be no lower than 7 feet
- Avoid planting large trees close to your house and remove dead limbs on existing trees
 - Severe storms, tornadoes, and hurricanes can damage trees which could damage your home and/or injure occupants

Light Up the Night

Lights are an easy and important way to deter criminal activity. Proper lighting in and around your property will deny criminals the cover that they desire.

- Ensure existing light fixtures are working
 - Replace broken fixtures and burnt out lightbulbs
- Consider installing dusk to dawn sensors on light fixtures so that lights automatically turn on at night
- Install motion detectors
- Solar or battery powered pathway lights are not only decorative; they can provide added lights around your property in previously unlit areas

Secure Your Home

Keeping your home secure can deter and prevent criminals from gaining access to your home.

- Ensure all doors and windows are locked, even when you are home
 - Install quality deadbolts on exterior doors to prevent doors from being kicked in
 - Throw bolts (the piece that extends when you lock the door) should be at least 1 inch long
 - Replace door jamb and strike plate screws with 3-inch-long screws
 - Do not store a spare key outside
- Install blinds and curtains on your windows to prevent outside observation
- Make it seem like you're home even when you're not
 - Set certain lights on a timer
 - Turn on the radio or a TV
- Consider installing a home security system

Develop a Plan

Sometimes incidents can't be avoided, but having a plan can limit impacts of an incident

- Complete the [SCN Home Safety Plan](#)
- Review and update the plan annually
- Practice. Practice. Practice.

Create Emergency Kits

Incidents can happen at any time and any place.

Building emergency kits for wherever you may be can help you prepare for and respond to incidents.

- Utilize the checklist in Appendix A to build your emergency kits
- Keep emergency kits at your home, office, and in your car. Also have a “go bag.” ready in case you need to evacuate.
- Check the contents of your kits annually to ensure they are not expired
- Make sure all household members know where emergency supplies are stored

Attend Civilian Preparedness Training

Emergency preparedness training courses can help you protect and care for yourself and/or your family members during an emergency.

- First Aid and CPR/AED
 - Contact your local fire department. Often, they offer courses at a free or reduced cost.
 - Search the American Red Cross or American Heart Association’s website for local classes
- Attend a Secure Community Network (SCN) Training
 - SCN offers the following training courses:
 - Stop the Bleed (STB)
 - Countering Active Threat Training (CATT)
 - Situational Awareness (SA)
 - Usher/Greeter
- Join a local volunteer organization
 - Contact your local government Many localities have volunteer organizations such as medical reserve corps (MRC) and community emergency response teams (CERT) for help during emergencies
 - Volunteer organizations often provide free or reduced emergency preparedness trainings to their member

Out in Public

Being aware of your surroundings and prepared to respond costs you nothing but is invaluable to your safety and security.

- Head on a swivel—keep your head up, constantly looking around and observing your environment
- Limit distractions such as talking and/or texting on your phone and having headphones in
- Keep your keys in your hand
 - Keys can be tucked in between your fingers and utilized as a self-defense tool
 - A panic button on your key fob can be utilized to scare off an attacker

Appendix A: Emergency Supply Kits Checklist

Emergencies can strike at any time and any place. Whether you're at home, work, or on the road, you should be prepared with the necessary supplies to survive an emergency. Based on best practice and expert guidance, the following checklists have been developed to assist you develop your emergency supply kits.

It's as easy as 1, 2, 3!

Gallon of water per person per day.

Weeks—The length of time your supplies should last when you shelter-in-place.

Days—The length of time your supplies should last when you evacuate.
