

What About the Children?

At what point did they think the law was wrong?

How could anyone sit back and watch it all take place?

Why did so many just turn a blind eye?

For the children of the Holocaust, there was no escape

Their fate sealed

Tortured and starved

They had to watch loved ones die,

In the millions.

Every single child of the Holocaust

Had dreams, goals, hopes

They were (our future doctors, artists, lawyers, parents)

Defenseless

Their lives were taken,

So young

Why wouldn't the citizens come help?

Were they too scared?

Their fears left them to live in a world of war.

Rather than die as someone's hero

Imagine the difference if more had helped  
How many more lives could have been saved?

They were only children

Who didn't deserve these

Unforgivable fates

Don't forget about the children of the Holocaust

They were our future
