

Holocaust Education Week

November 8-12, 2021

The State of Florida has passed legislation for the second year in a row that mandates the second week in November (11/8-12) as Holocaust Education Week (K-12). This week was chosen to commemorate Kristallnacht, also called “Night of Broken Glass”, a German pogrom against Jews that many historians recognize as the tipping point that started the Holocaust.

Throughout Holocaust Education Week, The Jewish Federation will sponsor Holocaust and Genocide scholars, Liberators of the Nazi concentration camps and local Holocaust Survivors to share their stories with students and teachers. At the end of Holocaust Education Week, in partnership with The Daffodil Project, we will support programming dedicated to World Kindness Day
