

Please Note: All holidays begin at sundown the night before and end at nightfall of the final day of observance.

During the Sabbath and Jewish holy days, work and other forms of activity are prohibited. Therefore, Jewish individuals may be absent from school, work, and organization activities.

No person should be penalized for his/her religious observances or beliefs. We appreciate your attention to these dates. For many Jews, work, school attendance, and other activities are prohibited during holy days but not during minor festivals.

agencies, and employers.**

# **Jewish Holy Days and Festivals**

## **2024-2027**

**The Community Relations department of Jewish Federation of Northeastern New York** presents this calendar in an effort to avoid scheduling conflicts and increase sensitivity in our pluralistic society. We hope it will provide guidance when scheduling dates for community events, open houses, special programs, teacher conferences, examinations, registration, assemblies, athletic events, and graduation.

There is a wide range of observances and practices within Judaism, just as within other religious communities. Some families observe more of the holy days than other families, and students should not be compared or contrasted with other Jewish students or teachers who choose to do more or less. For example, Rosh Hashanah may be observed for one or two days. Most Jewish students will observe Rosh Hashanah and Yom Kippur.
