The Jewish calendar has both lunar and solar elements. As such, the date for holiday observances vary from year to year. *All Jewish holidays begin at sundown on the evening preceding the holiday.* This is also true for the Jewish Sabbath, which begins at sundown on Friday and ends one hour after sundown on Saturday. Depending on the degree of personal observance, the Jewish holidays and Sabbath might include abstention from regular work day activities, a ban on driving, taking an SAT exam or participation in an athletic tournament.

\* Some Reform Congregations do not observe the second day.
