

The Butterfly Project...

Remembering the Children of the Holocaust

Did you know that 1.5 million children perished in the Holocaust?
Did you realize that the "butterfly" has become the symbol of those children? Help us all to remember them by participating in the Butterfly Project.

An artist/educator from our Center will visit your 4th or 5th grade classroom and engage students in a lesson about the Holocaust, which includes the reading of the poem *I Never Saw Another Butterfly*, written by Pavel Friedman, a young man who died in Auschwitz.

Other topics such as bullying, fear, division, and standing up for right are also discussed, with the lesson then culminating in the instruction and creation of a beautiful student crafted origami butterfly.

To participate in this moving and worthwhile endeavor,
