### **Abells, Chana Byers** **"The Children We Remember"**

*Through moving photographs from the Yad Vashem Archives in Jerusalem, Israel, archivist Chana Byers Abells has created an unforgettable essay about the children who lived and died during the Holocaust. While it is a story of death and loss, it is also a story of courage and endurance, a story to be shared with today's children.*

*Text and photographs describe the fate of Jewish children after the Nazis began to control their lives. The photographs chosen for this book are not so terribly graphic that they would frighten children, in fact, that was intentionally avoided. Each photo is of a different child, yet they as well as the reader are tied together by the text. The book makes clear the very real and very scary implication being that without out vigilance, the Holocaust could happen again – to anyone – but that might not be apparent to younger readers.*

Tell your students that doing nothing is no longer an option — because they have Happy Faces.

## Raab/Goodwin Book Synopsis

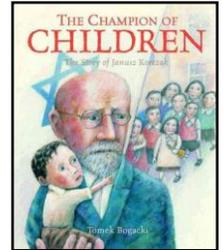

---

### Pre-reading:

- Tell the students that this story is about a kindergarten class, whose teacher's name is Mrs. Ruler, but the concept of being kind and doing good deeds can apply to all grades and adults.
- The class' goal is to do 100 acts of kindness. Do you think that they can meet their goal? What are some ways they can keep track of their acts of kindness to determine if they meet their goal?
- Do you think it is a good quality to be kind? Why or why not?
- What are some kind things that anyone can do?

### Post-reading:

- Why was the class "jumpy and grumpy"? What kind of behavior were they exhibiting? What are some things that we do when we are jumpy and grumpy?
- What was the consequence for the 5 students kept in from recess?
- What did it mean when Mrs. Ruler said, "Good deeds fill needs"?
- What are some examples of the good deeds the children performed?
- Did any of the children have difficulty thinking of a good deed?
- Which good deeds in the book are your favorite? Which ones are your least favorite?
- What are some ways you can be kind and encourage others to be kind?
- Being kind isn't always about being kind because someone was kind to you first. It is usually easy to be kind to someone if they are kind to you first – but what about when someone isn't kind to you – or if they are even mean to you? Can you be kind to someone and expect nothing in return – that's how you keep kindness going by paying-it-forward!

### Activity:

- Discuss ways to be kind to other students in the class. Then have each student pick their favorite action and draw it. Use dictation or student writing to have them talk about their pictures and write the words that they use to talk about their pictures.
- Model 'back-and-forth kindness' by saying kind words, just between each other. Pick two students to come to the front of the classroom. Ask them to say something kind to each other, going back and forth a few times for emphasis.
- Another way to model is for students to turn to the child next to them and say something kind to each other.

**Bill Freund**  
**"The Cookie That Saved My Family"**  
**Illustrated by Toby Mikle**

**Grades:** 1 to 4

Thus book is based on the author's personal history. It is a true story of what happened to him and his family in the 1930s when he was eleven years old. His family came to the US from Germany. Leaving Germany, the family of four, Bill, his parents and sister were allowed to take only \$7.00 with them to their new country. The book stresses his mother's message that while they could only take a small amount, leaving their money and other possessions behind in Germany, what they learned is in their heads and can never be taken from them. Long before they left Germany in 1936, she learned how to make Lebkuchen, a very special cookie famous in Germany. The parents took menial jobs to support the family, with the children taking small jobs when they were old enough to work. The onset of the war in 1939 stopped imports from Germany and the mother began to bake the cookies in their apartment and later opened a very successful store, called Paula's, where they sold the cookies and distributed them throughout the country.

While about the holocaust, the book takes a different path in detailing the struggles and successes of this family. The family's love for each other is conveyed clearly along with their will to survive in spite of the obstacles they faced. The illustrations are colorful and add meaning to the story.

**"The Tree In The Courtyard  
Looking through Anne Frank's Window"  
Illustrated by Peter McCarty**

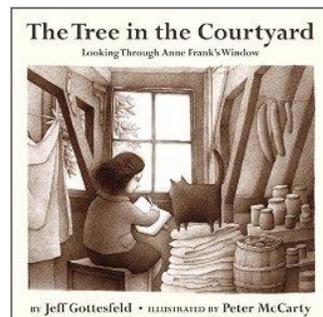

**Grades:** K to 3

*Told from the perspective of the tree outside Anne Frank's window and illustrated by a Caldecott Honor artist, this book introduces Anne's story in a gentle and incredibly powerful way to a young audience. Told through the "eyes" and ears" of a horse chestnut tree that stood silent watch over her two year confinement, the readers are told the story of Anne Frank.*

*In the period of over two years (July 6, 1942 to August 4, 1944) that Anne Frank spent in hiding in the secret annex, nature and her longing for freedom played an ever greater role. Through a window in the attic that was not blacked out, Anne could see the sky, birds and the chestnut tree. "The tree in the courtyard was a horse chestnut. Her leaves were green stars; her flowers foaming cones of white and pink. Seagulls flocked to her shade. She spread roots and reached skyward in peace."*

*The tree watched a little girl, who played and laughed and wrote in a diary. When strangers invaded the city and warplanes roared overhead, the tree watched the girl peek out of the curtained window of the annex. She wrote about the tree in her diary three times, the last time on May 13, 1944: "Our chestnut tree is in full bloom. It's covered with leaves and is even more beautiful than last year." It watched as she and her family were taken away and when her father returned after the war, alone. Sepia drawings and somber tableaux textured like fine engravings, convey the seriousness and sadness of the story.*

*The tree died the summer Anne Frank would have turned eighty-one, but its seeds and saplings have been planted around the world as a symbol of peace. Its story, and Anne's story, are beautifully told and illustrated in this powerful picture book."*

- Personified chestnut tree

- Symbol of hope and redemption

- Military, factory annex, attic, diary, vigil, strangers, war

**Kacer, Kathy**  
**“The Brave Princess and Me”**  
**illustrated by Juliana Kolesova**

**Grades:** 4-8

*The Brave Princess and Me* is inspired by the true story of Princess Alice von Battenberg, granddaughter of English Queen Victoria, who married a Greek prince and lived in Athens during World War II. Princess Alice was a great humanitarian who became known for her charity work during the war. Born with a hearing loss, Princess Alice learned to lip read and was always helping others. This virtue arose from her feeling of being different and of always being excluded or ignored. The story is told from the point of view of Tilde, a young Greek girl and a Jew. In 1941, the Nazis invaded Greece, arresting Greek Jews and sending many to concentration camps.

Tilde and her mother arrive at Princess Alice’s door one night, after having been on the run from the Nazis. Tilde’s father was prominent in the Greek government and, at one time, was friends with Princess Alice’s father, an English Prince, who promised Tilde’s dad that, if the family ever needed help, they were to go to him immediately. Tilde and her mother were welcomed into Princess Alice’s home upon arrival, and the princess hid the mother and daughter in an apartment. The princess, knowing she could be taken prisoner, or worse, if the Nazis discovered she was hiding Jews, used her hearing disability to her advantage when the Gestapo arrived at her door after someone reported seeing something in a third floor window.

### **"I Walk with Vanessa: A Story About a Simple Act of Kindness"**

**Grades:** PreK-2

This story is about a girl whose family moves to a new area after the school year has started. But it is really a story about children's feelings. Most of the children ignore Vanessa, but one child looks curious and turns out to be a friend and a leader of the other children. There is also a boy who is not very nice to Vanessa. It would be easy to label him "the bully", but when we first see him, he is also isolated on the playground and looks unhappy too.

Moving is hard. Everything's new at home and at school, you're nervous, you don't know where you fit in, and not everyone is nice. This beautifully illustrated wordless story shows how one person can make a difference and change tears to smiles. But someone is still left out! See if you can find him on each page.

### **Themes:**

- Being a friend, ally and support system
- Bullying and mean behavior
- Community, strength in numbers

### **Concepts/Vocabulary:**

- Aggressor, brave, bystander, friend ☐
- Ally, bullying, community, mean, target

### **During Reading:**

As you “read” the book aloud, ask questions to check comprehension and keep the students engaged, especially since there are no words. Below are some sample questions that correlate to specific page numbers. While reading, at each page ask students what they notice and what is happening.

1. Look at the first drawing. This story is about Vanessa who comes to a new school after the year has started. How do you think she feels walking into class on her first day?
2. When you meet people new people, how do you feel?
3. Look at the second drawing. Which desk does Vanessa choose? Why do you think she does this? Which person in class notices Vanessa? (Vanessa sits by the window, leaving an empty desk between her and the girl in the yellow dress. She is looking down at her desk, which means she is uncomfortable. But, the girl in the yellow dress notices her out of the corner of her eye. Why is she looking at Vanessa?)
4. Centre fold: Take a look at the children at the end of the school day. Some are in groups, some in pairs and some are alone. Find the blond boy in the red and white striped shirt. How do you think he is feeling? Why?
5. In the next drawings, the boy in the striped shirt catches up with Vanessa. What happens?
6. How does the boy make Vanessa feel? Who notices?
7. How do we know that the children are upset when they know that Vanessa was bullied? Who could help them figure out what to do?

9. How do you think Vanessa feels now that she has a friend?

### **Post-reading:**

1. Talk with students about mean behavior that includes teasing, name-calling and bullying. Ask them to identify when in the book they saw mean and hurtful behavior.
2. Has anything like that ever happened to you or someone you know?
3. What does the other girl see that is happening to Vanessa? What does she do about it?
4. What words would you use to describe the girl who helped and supported Vanessa?
5. Have you ever done anything like that?
6. What happened after the girl picked up Vanessa from her house in the morning? How do the other children get involved?
7. How does the story end? How do you feel when the story ends?
8. What do you think is the message of the book?

### “Most People”

Leannah, Michael

Illustrated by Jennifer E. Morris

This is a positive book about the good in people. This picture book gently reminds readers, most people are good and have good intentions. Even when someone does something wrong or is angry, it might be that they have made a mistake or can change. A book like this one can help youngsters understand why others behave as they do and perhaps forgive them for their mistakes. The world can be a scary place. Adults want children to be aware of dangers, but shouldn't children be aware of kindness too? Ink and watercolor illustrations bring different neighborhood people into focus as they go about their days. It's a picture book that impresses upon us that most people want to be good, do the right thing, and that they want to see you happy, too.

### **"We're All Wonders"** Palacio, RJ

#### **Grades:** K-2

All children are exposed to school or neighborhood bullies. They may even know what it feels like to be excluded from a game or activity. But they may not realize how someone with physical differences feels when others point and call them names. It's natural for children to be curious about those who have differences, like Auggie in this book.

The story is told from Auggie's perspective and he talks about how he understands that he isn't ordinary. He does ordinary things but doesn't look like an ordinary boy. He wants others to look at him for who he is, a wonder.

This book educates about the importance of empathy and being kind to others. The book introduces the concept of choosing to be kind. It is underlying theme of the book. The reason why children make fun of others in the first place is because they aren't educated about how it's wrong. They think it's funny and don't understand that it hurts others. It's no different than bullying. The world could be such a better place if people could just be kind to each other rather than tear each other apart.

### “Ordinary Mary’s Extraordinary Deed ”

by Emily Pearson

Illustrated by Fumi Kosaka

This book shares an amazing message: one small act of kindness multiplies quickly into BILLIONS without even realizing! Can one good deed from an ordinary girl change the world? It can when she’s Ordinary Mary - an ordinary girl from an ordinary school, on her way to her ordinary house - who stumbles upon ordinary blueberries. When she decides to pick them for her neighbor, Mrs. Bishop, she starts a chain reaction that multiplies around the world. Mrs. Bishop makes blueberry muffins and gives them to her paperboy and four others—one of whom is Mr. Stevens, who then helps five different people with their luggage—one of whom is Maria, who then helps five people—including a man named Joseph who didn’t have enough money for his groceries—and so on, until the deed comes back to Mary. It’s a feel-good story that inspires and celebrates a world full of ordinary deeds! Adding her uncle's shirt, and the nightdress and apron of two aunts, a quilt was made to remember their homeland, family and the love they shared. *Amid the horrors of World War II, Irena Sendler was an unlikely and unsung hero. While many people lived in fear of the Nazis, Irena defied them, even though it could have meant her life. ## Raab/Goodwin Book Synopsis

**Rubin, Susan Goldman & Weissberger, Ela**  
**“The Cat with the Yellow Star: Coming of Age in Terezin”**  
**Grades: 2 -5**

This book tells the great story of a concentration camp survivor, Ela Stein who was eleven years old in February of 1942 when she was sent to the Terezin concentration camp with other Czech Jews. By telling Ela's story, the author also pays tribute to all those who helped the children of Terezin. By the time Ela was liberated in 1945, she was fifteen. Somehow during those horrendous 3 ½ years of sickness, terror, and separation and loss from loved ones, Ela managed to grow up. Although conditions were wretched, Ela forged lifelong friendships with other girls from Room 28 of her barracks. Adults working with the children tried their best to keep up the youngest prisoners' spirits. A children's opera called Brundibar was performed, and Ela was chosen to play the pivotal role of the cat. Yet amidst all of this, the feared transports to death camps and death itself were a part of daily life. Full of sorrow, yet persistent in its belief that humans can triumph over evil; this unusual memoir tells the story of an unimaginable coming of age. The book is organized in chapters based on year and location of events. There are portraits and drawings on every page. There are pictures of Ela and her family and her friends from Terezin. There is a contents page, and index, source notes and an author's note. The story is written as a narrative from Ela's perspective. The opera, Brundibar, was retold in a Maurice Sendak book.

- What do you know about Paris during the Holocaust?
- Provide an overview of the story: *The Grand Mosque of Paris* is the historic story of the Muslim community of Paris during the Nazi occupation of World War II and their efforts to rescue Jews. The mosque constructed in 1926 had space for a community center, library, restaurant, clinic and apartments for the functionaries. It was built upon a labyrinth of subterranean tunnels and rooms, areas that had been excavated for building stones for the city of Paris. These underground passages and catacombs served as hiding places and escape routes for those hunted by the French police and Gestapo. The rescue and escape of Jews was under the leadership of the Rector, Si Kaddour Benghabrit, a sophisticated Algerian born diplomat, who was considered the most powerful Muslim in France at the time. The clerics provided sanctuary, certificates of Muslim identity and safe passage for those who sought their help. It is noted that at least 100 Jews, downed Allied airmen, Resistance fighters and escaped prisoners of war, were also spirited to safety.

### **Sis, Peter Nicky and Vera**

**Grades:** 4-6

One man made a difference as the full horror of the Holocaust began. Caldecott Honoree and Sibert Medalist, author Peter Sís honors Nicholas Winton who saved hundreds of children from the Nazis.

In December 1938, a young Englishman canceled a ski vacation and went instead to Prague to help the hundreds of thousands of refugees from the Nazis who were crowded into the city. Setting up a makeshift headquarters in his hotel room, Nicholas Winton took names and photographs from parents desperate to get their children out of danger. He raised money, found foster families in England, arranged travel and visas, and, when necessary, bribed officials and forged documents. In the frantic spring and summer of 1939, as the Nazi shadow fell over Europe, he organized the transportation of almost 700 children to safety.

Then, when the war began and no more children could be rescued, he put away his records and told no one. It was only fifty years later that a chance discovery and a famous television appearance brought Winton's actions to light. The author weaves Winton's experiences and the story of one of the children he saved, Vera Gissing. *Nicky & Vera* is a tale of decency, action, and courage told in luminous, poetic images by an internationally renowned artist. It is a tribute to a humble man's courageous efforts to protect Europe's most vulnerable, and a timely portrayal of the hopes and fears of those forced to leave their homes and create new lives.

**"A Lesson My Cat Taught Me"**

**Grade Level: K-5**

**Theme:** People with disabilities are productive and capable human beings and should be treated accordingly.

**Synopsis:** A young girl sees a stray cat in her apartment garage. She convinces her mom that the cat is homeless and that they should adopt it. They already have a cat and the mom has concerns but relents and they bring the new cat into their home. Both cats get along nicely. The young girl, Jennifer, notices that the new cat has only one eye. Mom explains that it was very possible that a family 'threw the cat out' because it was deformed. This horrifies Jennifer because the new cat is a loving wonderful addition to their family.

A new student is brought into Jennifer's class and she is in a wheelchair. The other students are not nice to Hillary, the new student. They make fun of her disability and ignore her. Jennifer befriends her and explains that Hillary is not disabled, she is very capable. Jennifer enters a school essay contest and writes a story about her new cat with one eye, Uno, and her new friend Hillary in the wheel chair. She wins the contest. Her essay is entitled "Lessons My Cat Taught Me".

Chloe, who sits next to her and doesn't return her smile, ends up thinking a lot about her actions after Maya is absent from school and never returns. This is a serious book about the effects of our actions and how sometimes, we don't get a second chance to return a small kindness.

#### Post-reading:

Mrs. Albert, the teacher says, "This is what kindness does. Each little thing we do goes out, like a ripple into the world." What do you think that means? Think about a stone dropped into water. How does that relate to how Chloe and her classmates act?

**“The Other Side”**  
**by Jacqueline Woodson**

Clover has always wondered why a fence separates the black side of town from the white side. And one day, feeling very brave, Clover approaches Annie. After all, why should a fence stand in the way of friendship? Beautifully rendered in Earl B. Lewis's striking, lifelike watercolor illustrations, author Jacqueline Woodson gives us a moving, lyrical narrative told in the hopeful voice of a child confused about the fence someone else has built in her yard and the racial tension that divides her world.
