

OUTCOME

Strengthen our relationships and impact in the broader Cincinnati community and around the world.

ACTIVITIES

STRENGTHEN CIVIC RELATIONSHIPS:

Help Jews get involved in civic leadership including nonprofit and public sector boards, committees, commissions, and coalitions. Develop educational leadership missions to Israel with civic leaders and organizations to build bridges of understanding and explore economic collaboration.

FOSTER HEALTHY DIALOGUE:

Create opportunities for both Jews and non-Jews to hear, learn, and discuss views on Israel and engage in civil dialogue; train facilitators; investigate and pilot safe, moderated digital/social frameworks in which individuals in our community can access accurate information and experts, engage in meaningful discussions, and be exposed to informative facts about Israel, Judaism, and peoplehood. Pilot digital and/or in-person curriculum about global Jewry that explores diverse Jewish cultures.

ADVOCACY:

Support and collaborate with civic leaders and organizations on issues that resonate with both communities. Create interfaith partnerships with non-Jewish organizations to advocate for responsible policies that affect everyone's safety. Lobby for local needs at a state and national level.

SAFETY & SECURITY:

Strengthen and broaden the security umbrella in Cincinnati and our region by providing guidance and consultation to all our local Jewish nonprofit organizations; invest in physical security, security guards, and other tools. Invest in our security infrastructure, expertise, and sharing of information so we can seek out pertinent security-related information and provide timely and relevant alerts. When available, secure nonprofit security grants/funds from state and national government.
