

**Goldman Charges
British Officials
Brutal To Jews**

By Jewish Telegraphic Agency
GENEVA—Charges that the British administration was employing "brutal Nazi methods" in the treatment of Palestine Jews were voiced by Dr. Solomon Goldman, president of the Zionist Organization of America, upon his arrival from a two-week tour of the Holy Land. He spoke at a closed meeting of the American delegation to the Zionist Congress. He absolved the military authorities of guilt, declaring they were acting in a correct manner, but said that the civil and police authorities in Palestine were behaving "just like the Nazis."

Dr. Goldman, whom the meeting named as head of the American delegation, bolstered his charges with incidents from his own experiences during the tour. He also related how police had mercilessly beaten Jewish children in the streets of Jerusalem, how members of the Jewish Agency Executive had not been spared insulting treatment by British officials and how 300 aged religious Jews, including a number of rabbis, had been mishandled by police in the Jewish quarter of Jerusalem, "in a manner similar to that in Nazi Germany."

Dr. Goldman asserted that not only telegrams but letters were being opened by the Palestine censors because of the growing hostility to the regime there. He declared there was not a single Jew in Palestine today who was not embittered against England for her betrayal of the Balfour Declaration and that all Palestine Jewry was looking forward to a decision by the Congress on how to prevent Britain from carrying out her new White Paper policy.
