CJP LEAP Webinar Series
March 2022
CJP LEAP WEBINAR AGENDA

• CJP Organizational Health Survey
• Cybersecurity in the Non-Profit Space
• CJP's Communal Cybersecurity Program
• Organization Testimonials
• Guest Speaker
• How to Get Started
• Q & A
• Annual survey to gauge the organizational health of our affiliated organizations.

• Now contains several cybersecurity questions
  • Use of Multi-Factor Authentication (MFA)
  • Cyber Insurance
  • Incident Response Plan
  • Cyber Maturity Assessment
WHAT DOES CYBERSECURITY IN JEWISH-BOSTON LOOK LIKE?

70% of organizations surveyed do not have an incident response plan

51% of surveyed organizations do not currently have an active Cybersecurity Insurance policy

95% of organizations have implemented Multi-Factor Authentication with their online banking

62% of the organizations surveyed have not had a cybersecurity assessment in the last 2 years

Benchmarked to other nonprofits:

68% do not have an IR Plan

80% do not have a policy

44% have MFA

70% have not had a single cyber assessment

WHAT’S THE WORST THAT CAN HAPPEN?

Both Cyber and Physical security can impact organizational health. Organizations could face:
- Financial Loss
- Reputational Damage
- Operational Disruption
- Future Viability

Threat actors will try anything they can to get your information or money. This may include:
- Phishing Campaigns
- Fraudulent Requests
- Ransomware
- And more!
HOW CAN YOU PROTECT YOUR ORGANIZATION?

• Make cybersecurity an organizational priority

• Conduct a cyber assessment of your controls with a third-party audit

• Create and document a cybersecurity program and roadmap

• Leverage CJP’s Communal Cybersecurity Program (CCP)
CYBERSECURITY IS AN ONGOING PROCESS

ASSESS
Evaluation of your organization’s cybersecurity and framework

ADDRESS
Remediation and addressing areas of risk

EXPAND
Expanding cyber resilience through added technology and services
WHAT DOES THE COMMUNAL CYBERSECURITY PROGRAM PROCESS LOOK LIKE?

Assess
- CJP will have an introductory discussion with you to see where our services can be most helpful to your organization.

Address
- Our team will assist you on addressing the associated risks and needs your organization is currently facing.

Expand
- CJP can help in accessing more advanced Cybersecurity services once your immediate risks have been addressed.
