

RUDERMAN SYNAGOGUE INCLUSION PROJECT

When talking to captioning companies, you can request someone who knows Hebrew, but it isn't always possible. If you have something scripted or know that a speaker will be using certain words, phrases, language, etc., send it in advance so that they can copy and paste (or at least get closer); same with name and company spellings. Additionally, if you're going through Zoom you have the option of going back and editing the captioning (not the provider typed but the auto-generated transcript) if you're planning to post the video after the event.

CJP and RSIP have used the following companies for Zoom captioning:

1. ACS

Description: ACS's simple captioning integration allows 1st time users to set up Zoom captions within seconds.
