

To the Community:

JFS continues to operate. Our staff is working remotely and we continue to serve the needs of the community. To ensure everyone's safety and health our services are now being delivered remotely by telehealth and telephone contact.

For any questions, inquires or concerns you can still call our regular number **908 725-7799**, please leave a voice mail message and we will return your call.

If you have a psychiatric emergency, please call 911.

Mental Health and Career Counseling Services are ongoing by telehealth methods in most cases. If you have a scheduled appointment the session will be conducted by telephone for the time being.

Senior Services: For everyone's safety we are no longer making home visits for counseling, case management and volunteer visits. Instead we are remaining in contact by telehealth methods and by phone. If you need to speak with your JFS social worker or volunteer or you are seeking help for the first time, please call our main number (**908 725-7799**) and leave a message. Voicemail is being checked throughout the day and your call will be returned. The one exception to this is our **Senior Shopper** program. Our staff and volunteers continue to shop for the individuals enrolled this program.

All **JFS Group** activities have been cancelled for the time being.

Volunteer Visitation Program (Family Mentors and Senior Mentors): Home visits have been suspended. Contact with families in this program are being maintained by telehealth methods and phone contact. Staff and volunteers are staying in touch and offering support.

If you or someone you know needs to talk to a professional about coping through this crisis, please contact us at **908 725-7799** and we will return your call.
