Why the Summit?

This year's Summit was created as an adjunct program to the JFNA Investment Institute. At the last 2015 Institute in Hollywood, FL, there was tremendous interest on how best to invest endowment portfolios with Israeli firms. This Summit will meet with finance professionals and thought leaders throughout Israel, including CIOs, portfolio managers and investment analysts, to get a better understanding on how they view these firms and why they are investing with them. We are grateful to the Israeli Economic Mission to the United States for their assistance and support, along with Summit Chairs Phyllis Tabachnick (Chicago) John Bussel (Miami).
