2. Executive Summary:

Please write a 100-word maximum executive summary of your JFNA-funded program. Please include the program's intervention, target population, evaluation results, and plans to sustain the program. Do not include general information about your organization. *

Sample executive summary: "Senior Services provided wrap-around services for psycho-social well-being of Holocaust survivors, with particular emphasis on those who are isolated. The program included 1) socialization events, 2) group therapy, and 3) a friendly visitor program. A PCTI-based assessment determined that social isolation decreased by 60% as reported by the clients. As part of this program, we connected with a university that provided volunteers, as well as a senior center that hosted the socialization events and is now implementing PCTI principles as a result. Through a community fundraising campaign, we raised \$100,000 which will sustain the program for the next year."

3. Number of Program Participants:

Please include the total number of **UNDUPLICATED** program participants for your entire JFNA-funded grant program. If a population was not served, please write 0.
