SparkIL is:

- **Connecting** Jews around the world to Israel
- **Engaging** lenders in a peer-to-peer technology platform
- **Supporting** small businesses in the periphery of Israel

SparkIL will:

- Speak to an audience looking to create their own take on philanthropy
- Pave the way for future giving to Israel
- Ignite the passion of social lenders

Small businesses in Israel represent 60% of the private workforce. Borrowers will fall into at least one of our three impact areas - People, Place, and Purpose.

PEOPLE
Underrepresented and underserved people in the national economy: Haredi, Bedouin, Israeli-Arab, LGBTQ, people with disabilities, and other vulnerable groups

PLACES
Businesses located in smaller, overlooked, and out-of-the-way communities in need of assistance

PURPOSE
People making a difference in the arts, education, health care, coexistence, and other social causes

Lenders make a **zero-interest loan** to a business of their choosing in Israel. Once each loan is repaid lenders will be given the **option to re-lend** to another business or withdraw their funds.

**All loans are 0% interest**

**No transaction fees**

**100% of the lenders money goes to the borrower**
