

Six Point Security Plan

Policy Overview

Jewish communities in America and Israel are under attack. Our synagogues, schools, and community centers have become targets, forcing us to retreat from our vibrant communal life, while geopolitical tensions between Israel, Hamas, and other Iranian proxy groups are at an all time high. The threats are real: We hear “Globalize the Intifada” chants while Molotov cocktails are thrown at Jewish events and deadly shootings target Jews. As more than 25 antisemitic incidents occur every day, violence against Jews is escalating.

Federal Action Needed to Secure Jewish Communities

1
Increase the Nonprofit Security Grant Program to **1 billion annually**

2
Provide federal support for personnel costs that Jewish communities are forced to bear

3
Expand FBI resources to fight the domestic and global war on terror

4
Provide federal assistance to local law enforcement to protect Jewish institutions

5
Regulate social media hate speech and incitement of violence

6
Enforce and prosecute existing hate crime legislation

Our SAFETY is not optional. Our security is NOT NEGOTIABLE.
