5:00 P.M.

YOUNG PROS COUNTERING BDS

The BJC and The Associated jointly launched our newest class of Young Pros Countering BDS this past month. This six-session intensive seminar will help prepare young adults in their 20s and 30s to educate and mobilize against the discriminatory boycott of Israel. Dr. Neil Rubin led the first session through Israeli history, and upcoming classes will include presentations by Stephanie Hausner of the Israel Action Network.

Council Matters

APRIL 2017

Board Update

Welcome to the newest BJC member - the Simon E. Sobeloff Law Society. We look forward to working with you!

Legislative Session Wrap Up

As the Maryland General Assembly begins its final week of session, we are making our last push for legislation important to our community. We are pleased to report that the BOOST Scholarship program received a 10% increase in funding and all agency programs of The Associated have been level funded. Sinai Hospital also received \$2 million for a new complex to increase the hospital's capacity for primary and specialty care visits.

ECYP Visits the Embassy

ECYP was honored to be invited to the Embassy of Israel in Washington, D.C. to learn about Middle Eastern history from Minister of Public Diplomacy Yaron Gamburg. This valuable experience will help the Class of 2018 Fellows as they prepare for their trip to Israel this summer.

In Memory of Sol Goldstein

The Baltimore Jewish Council mourns the death of our past President, Sol Goldstein. In addition to his leadership of the Council, Sol worked with the BJC to share his experiences as a World War II liberator with students and other groups across the region. His experiences from World War II inspired him to dedicate his life to helping Jews in trouble around the world, including in the former Soviet Union and Ethiopia. May his memory be a blessing.
