

## Outdoor Programming COVID Protocols (effective immediately)

To provide our community the safest, most enjoyable, and inclusive experience possible, the following standards will be in effect for all outdoor programming hosted by the Jewish Federation of the Berkshires and applicable to participants, staff and volunteers.

- While masks are not required for vaccinated individuals, we highly encourage those who feel they are vulnerable to continue masking.
- Unvaccinated individuals, including children over the age of 2, should wear a properly fitting mask at all times.
- If food is being offered at a program, it should either be served by a vaccinated staff or volunteer or offered in individually wrapped packaging.
- All foods should be consumed in small family or group pods in a socially distanced manner. Unvaccinated individuals should be provided with a designated area for eating in a socially distanced manner.
- Staff and volunteers are required to model these standards at all time and reinforce them verbally at the beginning of **every** program.
- Extra masks and hand sanitizer will be made available at every event.
- In the event that you are feeling ill or exhibiting COVID-like symptoms, please stay home.
- In the event that the location Federation is using requires a higher level of safety protocols than the ones listed here, Federation will adhere to the higher level of safety standards and notification will be made to the audience in marketing of the event and at the event itself.
- Signage of these policies will be posted in a visible place at every event. (SEE PAGE 2)
- These safety standards will be reviewed by the Executive committee on a monthly basis.

## **SAFETY PROTOCOLS FOR OUTDOOR PROGRAMS**

To provide our community the safest, most enjoyable, and inclusive experience possible, the following standards will be in effect for all outdoor programming hosted by the Jewish Federation of the Berkshires and applicable to all participants, staff, and volunteers.

- While masks are not required for vaccinated individuals, we highly encourage those who feel they are vulnerable to continue masking
- All unvaccinated individuals, including children over the age of 2, should wear a properly fitting mask at all times
- Any foods, whether provided by the Federation or brought by participants, should be consumed in small family or friend group pods, in a socially distanced manner.
- Hand sanitizer and extra masks are available

**Thank you for respecting these safety protocols**
