

Community Security Initiative Site Assessments

A reminder for Federation partner organizations that the Community Security Initiative (CSI) is active and here to serve your organization at any time.

The following services are available to your organization even during the quarantine period:

- Security Site Assessments
- Consultation / Recommendations from the CSI Director
- Planning Team / Policies / Procedures
- Education / Training: (this may be done virtually via zoom)
 - Situational Awareness
 - Active Shooter Tabletop
 - Run, Hide, Fight
 - Usher Greeter Training
- Vendor Identification/Vetting for Target Hardening
 - Off Duty Police Officers / Security Guard Service
 - Cameras / Monitoring / Access Controls
 - Ballistic Systems
 - Gated/Fenced Campus
- Collaboration with Law Enforcement Partners

Security protocols will lapse when there is no immediately perceived threat, and then be overcompensated when a threat emerges. Plan now to maintain security readiness for your respective organization. Preparation before the crisis is critical.

The Community Security Initiative stands ready to assist any Jewish organization in the greater Dallas area to meet their security goals.

If your organization has not had a security site assessment by Teamworks Consulting, please contact [Bill Humphrey](#), Director of Security. This assessment is at no cost to your organization.
