

Jewish Federation
OF GREATER DALLAS

HERE FOR YOU. HERE FOR GOOD.

Jewish Federation of Greater Dallas' President & CEO Search Underway

The work to identify a new CEO for The Jewish Federation of Greater Dallas (JFGD) is underway, and the Federation's Board of Directors is pleased to announce the hiring of the executive search firm, Anthem Executive, to support the effort.

Anthem Executive has partnered with Jewish community members with great success, including the recent CEO search for the Jewish Federation of Greater Los Angeles. A nationally recognized firm with headquarters in Texas, Anthem Executive conducts searches nationwide, and has led many significant CEO and executive search assignments both within and outside of Texas.

Thanks to our committed supporters and the tremendous growth occurring in the Dallas metroplex, JFGD's Board of Directors believes the Federation rests on a successful foundation that solidifies its standing as a leading voice and convener for the Dallas Jewish community, and positions the Federation as an appealing opportunity for any executive.

In addition to our fundraising activity, the Federation houses important program departments, such as the Center for Jewish Education, Jewish Community Relations Council, Community Security Initiative, and Israel & Overseas. By allocating funds to more than 80 local, regional, national and overseas organizations, the Federation provides safety net needs and Jewish continuity for Jews in Dallas, Israel and around the world. The Federation helps families stay connected through a strong family of agencies and community events, and helps young families teach their children about Jewish culture and traditions through PJ Library and countless other programs.

In the interim and during the search process, the Federation is being co-led by Donna Ostrower, Chief Development Officer, who will oversee the philanthropy and marketing departments and Gary Wolff, Vice President & COO, who will manage the operational side of the organization.

The Federation is excited and energized to commence the search for the CEO position, and looks forward to a bright future ahead as we seek and solidify the most qualified candidates and ultimately the ideal executive to lead the organization for years to come.
