Budget Estimate – Rough Draft

We started with two grants of \$16,000 each totaling \$32,000. This went to cover:

Videography Services: Covered converting video recordings to DVD and adding the tracking numbers at the bottom of each

Editing/Production Services: Covered all the editing services plus the time to search and download photos to use

Reproduction: So the museum, the Survivor or Adult Child would each have a copy of the completed, edited DVD

Materials and Equipment: Count on about \$4,000 each.
