

Back to B'nai

August 17, 2020

B'nai Shalom Day School is thrilled to reopen our doors on August 17th to in-person learning. We have worked diligently to develop a re-entry strategy that allows for flexibility, transparency, and prioritizes the health and safety of our community. B'nai Shalom also recognizes that some families may not be comfortable with their child(ren) returning to in-person learning and have a best-in-class remote learning model.

Physical Building:

Small class sizes with personalized instruction

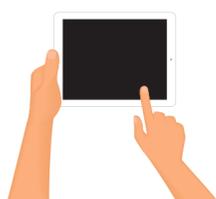

Upgraded ventilation system with NPBI (utilizes the technology of bi-polar ionization to eliminate airborne particulates, odors and pathogens) & MERV filters

Social distancing measures and consistent small cohorts of students and teachers

The use of outdoor classrooms

Continued use of online and virtual platforms in conjunction with in-person services (a “hybrid” approach)

The use of masks during classes and in public gathering spaces

Stringent sanitization and cleaning processes

Changes to campus access for visitors and parents

Learning Options:

Whether in-person or remote, we meet the academic and social emotional needs of our students through personalized instruction and a nurturing environment.

In-Person Learning:

Child(ren) will begin the 20-21 academic year on campus with specific health and safety procedures required. In the event that local authorities close schools or initiate a stay-at-home-order, students will transition to remote/blended learning.

Remote Learning:

Your child(ren) will continue with BSDS's blend of synchronous (live instruction) and asynchronous (teacher-directed) remote learning with regular modifications to ensure that students are receiving a well-balanced and academically fulfilling experience. We've added new technology, such as Swivl, to ensure children are engaged each day.
