The entire Jewish Federation community stands with the Pittsburgh Jewish community after this morning's horrific synagogue shooting.

Our hearts are irreparably broken today for the Jewish Community in Pittsburgh, and most especially for the members of Tree of Life Congregation and those families impacted by this horrendous shooting.

Like all Jews across the world, we stand ready to assist their community while at the same time redoubling our efforts to combat anti-Semitism and hate wherever we see it.

We will share more updates as they become available.

May the memory of those who were struck down be for a blessing. Baruch Dayan Emet.

Sincerely,
