

*Joslin LeBauer*

Community has been and continues to be very important to me. I have had the opportunity to serve as a lay leader and Jewish communal professional in Greensboro, Atlanta and nationally for forty five years. Through these experiences I learned the value of philanthropically insuring the future of the Jewish community. The Jewish Foundation of Greensboro has my donor advised fund and will also receive a permanent endowment to sustain my annual campaign gift.

My participation in the Jewish Foundation of Greensboro's donor advised fund not only gave me a way to manage my charitable contributions, but also to provide my children and grandchildren with access to financial resources to fund philanthropic programs. My donor advised fund will be augmented by a bequest from my IRA thus enabling my future generations to support their communities and to engage in tzedakah. My children will be able to join the donor advised fund program as recommenders and will continue the legacy that I inherited from my family and friends. My hopes are that my children, by having access to these charitable dollars, will enhance their giving and increase their communal involvement.
