

OC iEngage

Jewish Values and the Israeli-Palestinian Conflict

The Rose Project of JFFS Proudly Presents an Exciting Learning Opportunity with the Shalom Hartman Institute

Join us as we explore the Jewish values that unite us. We'll develop new ways of thinking and talking to each other about Israel by confronting one of the issues that most divides us.

Through the study of Jewish narratives about Israel and the complex meanings of peace, land justice, self-preservation compromise and Jewish exceptionalism in Jewish tradition, participants will develop a greater understanding of the ideals that shape their political views and those of others. Together participants will create a context for respectful Israel engagement across our differences.

This course combines accessible text study and in-class dialogue along with video lectures and interviews with leading Hartman scholars and Israeli public figures.
